ALCOLOCK

Convenient to use, designed for safety

Breath sample taken with standard drinking straw

10" touch screen

Convenient stand

ALCOLAB testpoint is a sleek tablet breathalyzer ideal for any function where alcohol is served; it provides user-friendly operation and professional-grade accuracy, allowing users to confidently self-administer breath alcohol tests.

Innovative

ALCOLAB testpoint features industry-leading technology and design. Built for convenience, safety and accuracy, ALCOLAB testpoint features a compact, lightweight, durable design –making testing and promoting safe driving effortless. Easily set-up at corporate events, parties, bars or restaurants, ALCOLAB testpoint is perfect for any gathering where alcohol is served and includes preset alcohol level limits based on the selected location.

Convenient

Press **Start** on the 10 inch touch-screen, insert a straw into the ALCOLAB testpoint port, blow through the straw for five seconds and results appear directly on the device screen. From start to finish ALCOLAB testpoint displays the test result and provides a safety message in less than 10 seconds.

Secure

ALCOLAB testpoint is customizable with three levels of access: Owner, administrator and operator. Users of each access level have a personal profile and password, all activity is easily monitored by the owner. Tamper proof and secure with built-in Wi-Fi connectivity, event login and logout times are recorded and reports are stored locally on the device and automatically emailed to the owner.
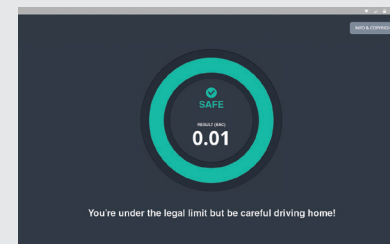

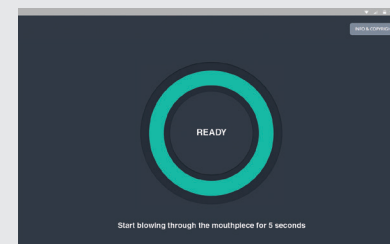

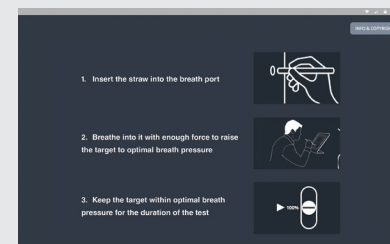

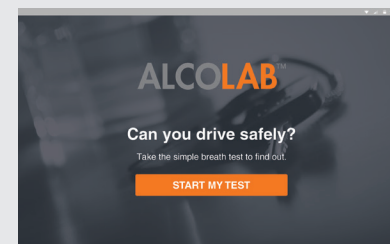

Reliable

ALCOLAB testpoint delivers professional-grade accuracy through its electrochemical sensor; ensuring other substances, such as cigarette smoke, will not skew results. ALCOLAB testpoint works wirelessly to ensure smooth device operation throughout an event.

Configurable

Designed with event management professionals in mind, ALCOLAB testpoint displays preset alcohol level limits based on the selected location, and allows home screen customization to suit specific events.

Use it anywhere

Airports, bars, casinos, colleges and universities, construction sites, high schools, hospitals, nightclubs, penitentiaries, restaurants and sports arenas.

Other features

- Software upgrades are quick and easy, upgrade notifications appear on screen and occur automatically, no need to send the testpoint back to the manufacturer for upgrades

- Smudge free stainless steel

- Breathport lights up according to results to indicate Pass, Warning or Fail

Sensor
Electrochemical

Specificity
Alcohol only; no response to ketones or hydrocarbons

Range of measurement
0 to 2.50 mg/L

Time to ready
< 30 seconds

Analysis time
< 10 seconds

Recycle time
< 25 seconds

Accuracy
±0.03 @ 0.25 mg/L

Display
10" touch screen

Operating temperature
+10 °C to +40 °C

Operating voltage
110 - 240 volt AC

Calibration
ALCOSIM™ breath alcohol simulator or equivalent

Dimensions
330 mm x 215 mm x 63 mm

Weight
2.5 kilograms
