Professional testing in the palm of your hand

ALERT J5 is the perfect companion for police roadside breath testing and industrial safety. This handheld breath alcohol tester marries evidential accuracy with sensible storage capabilities to combat drink-driving and ensure the safety of your employees.

Passive sampling

ALERT J5 is also equipped to test the surrounding ambient environment without active user participation. Simply point, click and analyse the air for the presence of alcohol.

Evidential accuracy

ALERT J5 uses an electrochemical sensor—the standard for law-enforcement breath alcohol testers, ensuring both stability and accuracy.

Programmable

This tester comes with an intuitive user interface and can be programmed to accommodate any language of any region/country. No matter who you are, or where you are, ALERT J5 has you covered.

Bluetooth® connectivity

When time is of the essence and supporting documentation is required, ALERT J5 can be paired with a Bluetooth printer to print results on the spot.

Your safety, our promise

ISO 9001, IATF 16949, ISO 14001, ISO 17034 and ISO/IEC 17025 certified, ACS ensures high quality design and manufacturing of all products and services while balancing our respect for the environment. Our commitment to safety, quality and customer service defines our industry leadership.

Sensor
Electrochemical

Specificity
Alcohol only; no response to ketones or hydrocarbons

Range of measurement
0.00 to 3.00 mg/L

Unit of measure
mg/dL, g/dL, g/L in blood
mg/L, µg/dL, µg/L in breath

Time to ready
< 10 seconds

Analysis time
< 10 seconds

Recycle time
< 10 seconds

Accuracy
± 0.03 @ 0.50 mg/L

Display
Graphical LCD

Memory
10,000 time-stamped events

Printer
Bluetooth connection

Operating temperature
-20 to +65 °C

Battery
2 AA alkaline

Calibration
ALCOSIM™ breath alcohol simulator or equivalent

Dimensions
130 mm x 59 mm x 32 mm

Weight
110 grams

Certification
NHTSA DOT
