

HANDSET NAVIGATION

Pull over,
turn off
motor

The display indicates one of the following messages:

- 1) Passed the breath test, **Drive safely** is displayed.
- 2) **Pull over, turn off motor** The indicator light glows red. You have failed the breath test. Park safely and turn off the vehicle engine.

Lockout and a countdown timer will be displayed.

NOTE: Do not attempt a breath test unless you are sure your alcohol level is under the preset limit. A second failed test may result in a longer lockout.

SERVICE DATES

Select **MENU**, toggle to **Dates** and press **Enter** on the Navigation button. Service appointments are scheduled at regular intervals. If you miss the Lockout date/time the system will enter **Service lockout**.

Service
lockout

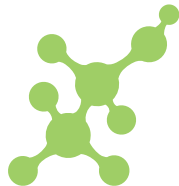

Lockout date:
2011-10-10
23:59

WARNING! If your **ALCOLOCK** unit enters **Service lockout**, the vehicle must be towed and you will be liable for the expenses and service call.

ALCOLOCK™
QUICK GUIDE

ALCOLOCK and The Molly are trade-marks of Alcohol Countermeasure Systems (International) Inc., and are used under license.

Read the ALCOLOCK GR Unit Instruction Manual for FULL DETAILS on the proper use of the unit!

NOTE: If the Handset battery is low, it can be charged using the DC Car Adapter or AC Power Adapter (wall charger) - optional item.

PERFORMING A TEST

WARNING! Do not eat, smoke or drink for at least 15 minutes before taking a test.

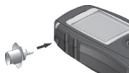

Do NOT turn the ignition on, you must provide a breath test first.

To activate the unit, press the centre (Enter) of the navigation button and hold for 4 seconds.

Wait

Wait will be displayed. The Handset is warming up.

Blow for 4 seconds

Blow for 4 seconds will appear when the Handset is ready for a breath test.

Insert a clean mouthpiece. Blow and hum into the mouthpiece. Stop blowing when the tone ends.

Wait is displayed; breath sample is being analyzed.

The display indicates one of the following messages:

1. Start motor - You have passed the breath test, start the vehicle engine.

Drive safely is displayed.

Caution

2. Caution - Passed with alcohol detected.

You have two options:

1) Press **CANCEL**, wait 5 minutes, test again when you know you can provide a proper breath sample.

2) Press **CONFIRM**, acknowledge that you intend to drive with alcohol in your system.

Start vehicle, **Drive safely** is displayed.

3) **Lockout** - Alcohol level is at/or over the preset limit. You may **NOT** start the vehicle. **Lockout** and a **countdown timer** are displayed. Wait for the countdown to finish. Take a breath

Lockout 00:40

test if you are sure your alcohol level is under the preset limit. Vehicle will not start until a proper breath sample is provided.

WARNING! All breath test results are recorded. Any test that detected alcohol in the breath sample may be considered a program violation.

PERFORMING A RETEST

Retest

At random times the Handset beeps and displays **Retest**.

DO NOT perform a breath test while the vehicle is in motion.

Complete a successful breath test.
